1. July 4th Recap

This year I directed our enforcement teams to take a “Zero Tolerance” approach to fireworks, and unlike previous years, collect any and all fireworks they came across. We contacted 58 separate parties who were using fireworks. Police issued one citation to a woman who refused to give her fireworks and began yelling expletives at the police officer as soon as he arrived. Other than that incident, most people were friendly and cooperative.

We collected a significant amount of fireworks - all voluntary, no seizures or forfeited items. Estimated collection was around 5 times what we collected last year.

The Police Department officers were great - it was a very good productive & effective year (no fires/injuries in city limits).

There were 58 calls during the 4th of July, however, only 4 related to fireworks—3 of which were minor grass fires. The one roof fire occurred in unincorporated King County (Fairwood). The number of fireworks related fires also continues to trend downward, with a 50% reduction over last year.
2. RRFA and City of Renton Working Together
   I received a note from the City’s Emergency Management department that went as follows:

   *I taught a fire extinguisher class at 14 on Tuesday evening. The crew saw us out there hosing down the mess with our tiny hose. They came out and hooked up a line, hosed and squeegeed the whole thing down for us. Then they washed our car! It was so kind of them and so appreciated. I just wanted to let you know how grateful we are for the RFA’s support and partnership, and to tell you about the great things your people do!*

3. JATC Test Results
   A big congratulations goes out to Firefighters Kayla Eychner, Benjamin Garretson, and Andrew Harm who successfully passed their 2A JATC step test with high marks. Great job you all! Keep up the hard work.

4. New Member Update
   Our 9 new candidates have successfully passed their physicals and psych examinations and we are currently reaching out for reference checks and completing background checks.

5. Progress on Station 15
   Captain Will Aho was able to share the latest pictures showing the progress of station 15. The contractor is framing walls and the station is moving from a 2D drawing to a 3D structure. The Station continues to take shape now that we have walls being framed up.
6. New Smartphones on the FirstNet Network

In a partnership with AT&T, the FirstNet Network is a single, nationwide, interoperable LTE network dedicated to public safety communications.

Specifically, FirstNet gives organizations like ours, Priority and Preemption over the general public in emergency situations. In addition, emergencies are not the only times when public safety needs capacity to communicate and send data. Planned events – like concerts, festivals, and sporting events – draw crowds to a single location, making it difficult for public safety to get the robust network capacity they need to do their jobs. That’s where FirstNet will help, by providing needed bandwidth to coordinate public safety resources and respond to any incidents.

Included in the 2018 budget were the funds necessary to equip our team with 34 new phones and lines of service. The phones and necessary training are expected to be deployed later this week.

Low acuity calls continue to out pace emergency calls for service--impacting the RRFA’s ability to effectively respond to emergent needs of our community. This is a complicated situation that has many stakeholders involved.
