Guidelines for Chapter 27 Compressed Gas Systems Installation

Separate plans and permits are required for installation of Chapter 27 compressed gas systems as required by the International Fire Code and City of Renton Ordinance.

All required documents must be scanned and saved in PDF format on a flash drive for in-person submittal by appointment only to the City of Renton Permit Center at Renton City Hall, 1055 S. Grady Way, 6th Floor. **No hard copy paper documents will be accepted.** All information related to the installation shall be included with the plan review package; **incomplete packages will not be accepted.** A plan review fee is to be paid at the time the plans are submitted, based on the value of the work to be performed. All contractors doing work in the city of Renton are required to have a Renton Business License. All information and evidence of required licenses are to be provided with the application for permit. If the installation is in conjunction with a building permit, the Building Permit number shall be provided at the time of submittal. The **City assigned** street address must be included on the application.

Call 425-430-7200 and choose option 1 to schedule a submittal appointment.

Procedures for installation of Chapter 27 compressed gas systems such as process piping, compressed gas, medical gas and hazardous material gas piping shall be subject to the conditions referenced in the International Fire Code and Mechanical Code. Installation of process piping for new installations, major repairs or alterations will require the following:

1. A brief, well-written project narrative that describes the entire scope of the project in complete detail, to include any special hazards or handling associated with the gas.
2. Point-to-point piping diagram, specifications, materials and type of gas to be piped, including everything from gas supply through distribution to use.
3. Total number and location of outlets.
4. Location of all valves, fittings and safety devices.
5. Compatibility and identifications of piping.
6. Location and method of storage of gas supply, to include vented gas cabinets, "H" listed occupancies, or outside storage.
7. Electronic monitoring equipment and cut sheets, to include high level alarms, low level alarms leak detection, local beacons, audibles and/or remote monitoring are all subject to **separate** plan review and permits.
8. Chemical treatment/afterburners and/or scrubbers.
9. A permit fee will be assessed at the time of permit issuance.
10. Inspections and tests are to be witnessed by an Office of the Fire Marshal inspector.
11. If installation has additional electrical components, a separate electrical permit may be required by the City of Renton Building Department.
12. Permits will require approval and signatures by an Office of the Fire Marshal inspector.

All field tests and/or inspections must be scheduled by calling 425-430-7024 a **minimum of 24 hours** prior to inspection. Inspection appointments will be subject to the availability of personnel. The contractor must be present at the time of all field tests.
