¹Per RMC 4-3-050F7, the City may charge and collect fees from any applicant to cover costs incurred by the City in review of plans, studies, monitoring reports and other documents related to evaluation of impacts to or hazards from critical areas and subsequent code-required monitoring.

²When the City is the lead agency for a proposal requiring an Environmental Impact Statement (EIS) and the Environmental Review Committee (ERC) determines that the EIS shall be prepared, the City may charge and collect a reasonable fee from any applicant to cover costs incurred by the City in preparing the EIS. The ERC shall advise the applicant(s) of the projected costs for the EIS prior to actual preparation; the applicant shall post bond or otherwise ensure payment of such costs. The ERC may determine that the City will contract directly with a consultant for preparation of an EIS, or a portion of the EIS, and may bill such costs and expenses directly to the applicant. Such consultants shall be selected by mutual agreement of the City and applicant after a call for proposals. If a proposal is modified so that an EIS is no longer required, the ERC shall refund any fees collected under this subsection which remain after incurred costs are paid. The City may collect a reasonable fee from an applicant to cover the cost of meeting the public notice requirements of this Title relating to the applicant's proposal. The City shall not collect a fee for performing its duties as a consulted agency. The City may charge any person for copies of any document prepared under this Title, and for mailing the document, in a manner provided by chapter 42.17 RCW.

³Prior to issuance of a small cell permit, the applicant shall pay the actual administrative expenses incurred by the City that are directly related to the City's review of the application, including plan inspection, and approval, as authorized by RCW 35.21.860(1)(b), as may be amended.

Public Works Fees: Franchise Application Fee¹

¹The fixed application fee established herein is intended to cover the City's internal administrative costs in processing and administering the franchise. In addition to the fixed application fee, the City may require applicants to either directly pay or reimburse the City for external costs reasonably incurred to process the application and/or administer the franchise agreement. The City may require applicants to deposit funds in advance to cover legal and/or other professional services fees as they are incurred.
