**CONTRACTOR INFORMATION:**

SEPA approval is necessary prior to the issuance of this permit. Electronic copy attached? Yes No

Electronic copy of manufacturers' specification sheets (cut sheets) is required to be submitted at the time of application for all proposed hardware associated with the installation.

I certify that the information furnished by me on this application is true and correct and that the applicable requirements of the City of Renton will be met. I understand that this application is valid for six months from the application date. If a permit is not issued during this time period, this application will become void. This application does not constitute a permit to work. Work is not to commence until the permit is posted on premises where work is to be performed. Certification is hereby rendered that no work will be done except as described, and that all work will conform to the applicable codes.

## Guidelines for Storage, Handling or Use of Hazardous Materials

Separate plans and permits are required for installation of cryogenic fluid tanks as required by the International Fire Code and City of Renton Ordinance.

**All required documents must be scanned and saved in PDF format. Contact the City of Renton Permit Center at [permittech@rentonwa.gov](mailto:permittech@rentonwa.gov) for instructions regarding how to electronically submit the required documents.**

**General Requirements:** No hard copy paper documents will be accepted. All information related to the installation shall be included with the plan review package; incomplete packages will not be accepted. A plan review fee is to be paid at the time the plans are submitted, based on the value of the work to be performed. All contractors doing work in the city of Renton are required to have a Renton business license. All information and evidence of required licenses are to be provided with the application for permit. If the installation is in conjunction with a building permit, the Building Permit number shall be provided at the time of submittal. The City of Renton assigned street address must be included on the application.

### Submittal Package Checklist

1. Fully completed permit application.
2. A brief, well-written project narrative that describes the entire scope of the project in complete detail.
3. Proposed location of the tank on the property, including distance and setback from property lines, permanent or temporary structure(s) and other tanks.
4. Specifications of the tank shall include the make, model, capacity, vents, method of mounting, listing on tank and MSDS of the material to be contained or dispensed.
5. Complete plans, including spill control, drainage control, secondary containment, and diking.
6. Pump, dispensing hose, nozzles and required safety devices shall be shown on the specification sheets as required.
7. Confirmation that the applicant and/or proposal has cleared the necessary environmental and land use reviews prescribed by SEPA.

### Information and Guidelines

8. Electronic monitoring equipment and cut sheets, to include high level alarm, low level alarm, leak detection, local beacons, audible and/or remote monitoring are all subject to separate plans and permits.
9. Reviewed plans will either be approved, approved with conditions, or denied in accordance with the standard plan review procedures.
10. A permit fee will be assessed at the time of permit issuance.
11. Product shall not be put into tank until tank installation inspection has been approved and permit is signed by the inspector.
12. The inspector's approval of the installation shall be based on compliance with the approved plans.
13. The removal of aboveground tanks or a change in use are subject to a separate review and permit process.

All field tests and/or inspections must be scheduled by calling 425-276-9580 a **minimum of 24 hours** prior to inspection. Inspection appointments will be subject to the availability of personnel. The contractor must be present at the time of all field tests.
