PSERN Radio Transition

[06/15/23 – Renton, WA] On June 21st, Renton Regional Fire Authority (Renton RFA) will transition from analog to digital radios as part of the PSERN emergency radio replacement project. We are one of several South King County fire agencies that will switch during this phase. Media may need to transition to a digital scanner (e.g. P25) to listen to calls. In the meantime, Realtime 911 provides incident information, and Renton RFA will continue posting PIO updates via Twitter on significant events. To learn more about PSERN, visit <https://psern.org/>. @psern_operator
